

Beijing Citywalk

Thank you so much for the travel benefits provided by CUL, which brought colleagues from all over the offices together. Although we are not familiar with each other, after the travel activities, we have got to know every teammate and deepened our understanding. In our future work, we can help and support each other, which has played a great role.

Beijing is truly an imperial capital, with the largest and most complete palace style building in the world - the Forbidden City, the largest and highest ethical level sacrificial building complex in ancient China - the Temple of Heaven, and also ancient military defense works - the Great Wall.

In terms of modern architecture, we cannot ignore the National Stadium - Bird's Nest, the National Aquatics Center - Water Cube, and the CCTV headquarters building - Big Pants.

北京游记

非常感谢公司给予的旅游福利，让来自五湖四海的同事们齐聚。尽管大家素不相识，透过旅游活动，大家互相认识了，并加深了了解，在日后的工作里可以互相帮助，互相支持，这起到了很大作用。

北京是名副其实的帝都，有世界上现存规模最大最完整的宫殿型建筑-故宫，现存中国古代规模最大的伦理等级最高的祭祀建筑群-天坛，也有古代军事防御工程-长城。

现代建筑方面不得不提国家体育场-鸟巢，国家游泳中心-水立方，中央电视台总部大楼-大裤衩。
